Chautauqua is over and now get ready for the big circus that will begin preparations pageant and masque, to be given in the meantime, we'll have the automobile meet and lady barbecue. One need not suffer from ennui in Mexico. The chautauqua was all that was expected and the best Mexico has ever had. Social attractions were all high and the lectures were given by prominence and action. Every one praised and lauded this and state and tried to find fault with this community with pride and ambition. It must be said that it was a "citizens" of nation and such a state. I was impressed with the large number of people who attended the chautauqua and consider it a good thing that everyone was better than ever and everybody was pleased with the entertainment except the critic of the Daily Intelligencer who reported that the chautauqua was confined to the Elks' Min-

OPENING OF SHOE FACTORY
SIGN OF BETTER CONDITIONS
St. Louis shoe manufacturers, for the most part, have had their salesmen in the South and Southwest for the last two or three weeks, showing the new spring lines. Sales managers say that from the nature of the returns they are getting, it is hard to believe there is a business depression of any kind.

The opening of the International Shoe Co. plant in this city Monday breaks out the fact that business depression in most instances is purely a mental condition.

John C. Roberts, vice president of the International Shoe Company of St. Louis, says:
Our gain in order receipts this week was 33 1-3 per cent over the record of the same comparative week a year ago. Our shipments for the same period are normal, showing a slight gain of \$2,000 on the week.

For the first eight months of our fiscal year we are enabled to show a \$100,000 gain in shipments.

Mr. Roberts sounded a warning note for shoe consumers, saying prices may rise because of the war.
